

Coursework Overview

Coursework: Group Project and Group Presentation- 40% of the Final GradeIndustry Interview and Group Presentation

Overview

In this assignment, you will work in groups of **5–6 students** to interview an IT industry professional and present your insights. Module team will be sharing the grouping. The purpose is to strengthen your **real-world communication skills**, build **industry awareness**, and practice professional group presentations.

On successful completion, you will:

- Gain exposure to current IT industry practices and trends.
- Improve interview and presentation skills.
- Learn to collaborate effectively as a team.

Find your group here: [Link to Subgroups](#)
